Stocks Advance Smartly Despite Sales for London Account.

CHICAGO IS NOW VERY BULLISH.

Louisville and the Villards Lead in the Rise-Sterling Marked Up.

WALL STREET,) MONDAY, Jan. 5-6 P. M.) Many items of news to-day and a smart move-

ment in the market. The netresult is an advance of 14 to 3 per cent, Bonds, too, continued in brisk demand.

London houses sold at the opening and at intervals during the day, but the buying for Chicago account and by commission houses here as well as traders carcied up prioss.

The refunding of the French loan doesn't seem to be much of a bear point in view of the fact that a premium of two per cent is bid for the new rentes over the issue price, although it is not yet known what the latter will be.

Easy money and the stronger position of the city

banks was undoubtedly the chief bullish factor in to-day's movement, and it was stimulated by a further improvement in the domestic exchanges, New York funds now commanding a premium of 70 cents per \$1,000 in Chicago. A very active and advancing speculation in Louisville and Nashville also doubtless helped the

market. The advance in that stock was apparently fought by the traders, but some people think it is done by those who are manipulating the until they shall have accumulated more stock. One story is that the half yearly dividend will be

another that it will as usual consist largely of scrip. The company paid two dividends of 3 per cent each last year, but only 1 1-10 per cent of all this was in cash. In at least one instance to-day the coming dividend was sold for 2% per cent. Two per cent was bid for the dividend on an unlimited number of shares. Work, Strong & Co. were conspicuous buyers of the stock. Another bullish influence was the announcement

that Decker, Howell & Co.'s assignee would make his report to-morrow, and that the firm would resume business at an early day. This announcement was coincident with a sharp rise in the Villards-the properties with which the house was so closely and disastrously identified. North American was particularly buoyant, Mr. W. B. Wheeler bought several thousand shares.

Still another bit of news that helped the market was Senator Stewart's sidetracking of the Force bill, which the street regards as now Toward the close a smart fractional reaction occurred, in consequence of selling to realize profits and by traders who argued that a reaction was due and the silver question was now up again for discussion. A sharp advance in sterling exchange this afternoon was also used as a bear point, although it is caused maining by the exceeding low interest rate in Lon-

don and is certain to stimulate exports.

The only serious beat actor is "the Little Wizard's" attempt to buildoze the Rock Island and St. Paul roads in the Omaha Bridge matter. The street fancies that a compromise will be reached before the meeting on Thursday next to organize the new rallway association, but there is no assurance that the quarrel will be adjusted. It would seem that "the Wizard" could not afford to annihilate the results of his own labors to bring about this organization, but it must be confessed that it is quite as difficult to tell what his game is as to guess under which thimble the little joker lies.

Sales at the Board amounted to 257,451 shares (silver bullion certificates not included), against 99,382 on Saturday and 188,812 on Friday. Fol-

COTION.—It would have been the most flagrant pessimism for any one to have complained of a lack of life in the cotton speculation to-day, though it is true, of course, that there aiways are people who complain of the course of quotations. The bulls were the ones who happened to be diseatisfied to-day, although they had had things pratty much their own way some days. They seem to have forgotten that "change marks the flight of time." There was a decline to-day of 13 to 16 points, with only a slight recovery toward the close. Liverpool opened 4 to 5 points higher, but reacted and closed at net advance for the day of only 16 to 16 points, with the opened 4 to 5 points higher, but reacted and closed at a net advance for the day of only 14 to 134 points, with the final tone weak, though the sales were 15,000 bates. In Manchester varas had a hardening tendency and cloths were duil. In New Orleans January fell 20 points and other options 13 to 15 with a fair business. Here on the spot the market was quiet and unchanged, middling uplands remaining at 9-16 withhales of 185 bates for home consumption. The Southern spot markets were irregular. New Orleans and Savannah were easy, but Mobile and Galveston advanced 1-16c. Memphis was firm, with sales of 4,700 bates. St. Lunis sold 2,700, New Orleans 6,800 and Norfolk 1,501 bates. The receipts at Augusta were 328 bates, against 1,842. The receipts at Augusta were 328 bates, against 1,842 this day just week and 3,751 this day just year, at Memphis 1,110 bales, against 6,105 this Cay last week and 3,751 this day just year, and St. Louis 2,800 baies, against 1,842 this day last week and 2,751 this day last year, and St. Louis 2,500 baies, against 56,104 this day last week and 2,741 this day last year, the fair twock. Options closed steady after sales of 128,400 bales.

The bears not only want the planet, but the whole solar system, particularly as they have controlled the market for over five months past. The reports that thirteen loads had been taken here for export today were not confirmed. It transpired that ten loads had been taken here for export today were not confirmed. It transpired that ten loads had been taken as Baltimore. Corn moved up, partly owing to a rumor that the final government report would be builtigh and partly in sympathy with wheat, while there was a fair demand to cover the May option. Oats moved in unison with corn.

NAYAL STORES—quiet, steady and unchanged.

PROVISIONS—Though Armour & Co. and Mr. Cudaby were sellers of pork it advanced and provisions were generally firmer, with the receipts of hogs at Chicago smallet than had been expected. Still, there was no great amount of life in the trading here, where the sales of lard were only 2,000 terces, though It is true that the market for that product showed more atrength. CHICAGO, III., Jan. 5, 1801.—Wheat had a little boom to-day. The closing quotation for May wheat was 98%c., compared with 18sc. on Saturday. Cora was quoted at 5056c. as the session was torminating, against 5856c. on Saturday. Provisions were strong on the Amadier receipts and higher prices of hogs and the expectations that the recent immense slaughter of the innocents is ever. Board of Trade politics and business being both active, the members were correspondingly busy. Wheat opened at 1855c. and sold at 475c. a 1855c.

On the care, previous to the commencement of the regular histories, there was an accession of atrength in both wheat and corn, which had its source in the weather bulletin for the month of December, in which it was stated that which had deteriorated in condition owing to the drought experienced throughout an extensive area of the windows had color that the Agricultural Papartment at Washington had sprung another leak, and on the offect that the intast estimates showed a smaller quantity as the result of the sense of the bears.
